Editorial Board

Editor-in-Chief	J. L. Melnick, USA
Editorial Board	Full address of the Editorial Board members may be obtained from the office of the Editor-in-Chief or from the Publishers.
Structure of Viruses	A. F. Howatson (Section Editor), Canada; J. B. Almeida, UK; T. F. Anderson, USA; W. Bernhard, France; S. Dales, USA; R. W. Horne, UK; F. A. Murphy, USA; M. Mussgay, Germany; E. Norrby, Sweden; G. Ruttkay-Nedecky, Czechoslovakia; J. Skehel, UK; D. W. Verwoerd, S. Africa
Plant Virology	A. J. Gibbs (Section Editor), Australia; J. B. Bancroft, UK; R. Bercks. Germany; H. Fraenkel-Conrat, USA; R. W. Fulton, USA; B. D, Harrison, UK; Z. Hidaka, Japan; L. Hirth, France; R. J. Shepherd, USA; V. Valenta, Czechoslovakia
Invertebrate Virology	T. W. Tinsley (Section Editor), UK; K. Aizawa, Japan; L. Bailey, UK; E. Kurstak, Canada; J. F. Longworth, New Zealand; K. Maramorosch, USA; C. Reinganum, Australia; D. W. Roberts, USA; C. Vago, France; J. L. Vaughn, USA
Bacteriophage	N. D. Zinder (Section Editor), USA; D. Botstein, USA; D. E. Bradley, UK; A. Eisenstark, USA; F. A. Eiserling, USA; W. Fiers, Belgium; R. M. Franklin, Switzerland; D. M. Goldfarb, USSR; R. Haselkorn, USA; P. H. Hofschneider, Germany; M. Schweiger, Germany; E. R. Signer, USA
Virus-Cell Relationship	G. Klein (Section Editor), Sweden; R. Bablanian, USA; F. Brown, UK; R. Compans, USA; A. Granoff, USA; I. Gresser, France; W. G. Laver, Australia; L. Kjellén, Sweden; T. Merigan, USA; L. Montagnier, France; B. Moss, USA; W. Russell, UK; R. Sheinin, Canada; H. zur Hausen, W. Germany
Replication of Animal Viruses	H. S. Ginsberg (Section Editor), USA; V. I. Agol, USSR; Y. Becker, Israel: M. Girard, France; A. Graham, Canada; A. S. Huang, USA; W. K. Joklik, USA; A. S. Kaplan, USA; D. W. Kingsbury, USA; A. S. Koch, Hungary; B. R. McAuslan, USA; L. Philipson, Sweden; B. Roizman, USA; R. Rott, Germany; J. Vinograd, USA; P. Wildy, UK; V. M. Zhdanov, USSR

Genetics	P.D. Cooper (Section Editor), Australia; Y. Ghendon, USSR; H. Hanafusa, USA; E.D. Kilbourne, USA; S. Kit, USA; C.R. Pringle, UK; J.F. Sambrook, USA; J.H. Subak-Sharpe, UK; P.K. Vogt, USA; J. Zavada, Czechoslovakia
Epidemiology	E.H. Lennette (Section Editor), USA; F.L. Black, USA; D. Blaskovic, Czechoslovakia; R.M. Chanock, USA; F. Dekking, Netherlands; R.W. Emmons, USA; S. Gaidamovich, USSR; N. Goldblum, Israel; K. Johnson, Panama; J.A.R. Miles, New Zealand; N. Nathanson, UK; W.E. Rawls, Canada; L. Rosen, USA; W.F. Scherer, USA; I. Tagaya, Japan; J. van der Veen, Netherlands; H. von Magnus, Denmark; H.A. Wenner, USA
Oncology	F. Rapp (Section Editor), USA; H. Bauer, Germany; M. Benyesh-Melnick, USA; M. Green, USA; Y. Ito, Japan; I.A. Macpherson, UK; W.P. Rowe, USA; S. Spiegelman, USA; J. Svoboda, Czechoslovakia; H.M. Temin, USA; G. Todaro, USA; J. van der Noordaa, Netherlands; P. Vigier, France
Immunology	N. Oker-Blom (Section Editor), Finland; A.C. Allison, UK; F. Deinhardt, USA; S.F. de St. Groth, Australia; D.T. Karzon, USA; G. Le Bouvier, USA; M.B.A. Oldstone, USA; A.J. Rhodes, Canada; N.J. Schmidt, USA; V. Vonka, Czechoslovakia
Classification and Nomenclature	F. Fenner (Section Editor), Australia; A. Eisenstark, USA; A.J. Gibbs, Australia; F.A. Murphy, USA; R.J. Shepherd, USA; C. Vago, France; P. Wildy, UK

Contents Vol. 2

No. 1

STERZ, H.; LUDWIG, H., and ROTT, R. (Giessen): Immunologic and Genetic Relationship between Herpes Simplex Virus and Bovine Herpes Mammillitis Virus 1

PETERSON, D. A.; WOLFE, L. G.; DEINHARDT, F.; GAJDUSEK, D. C., and GIBBS, C. J., jr. (Chicago, Ill.): Transmission of Kuru and Creutzfeldt-Jakob Disease to Marmoset Monkeys 14

WRIGHT, P. J. and COOPER, P. D. (Canberra): Isolation of *Cold-Sensitive* Mutants of Poliovirus 20

ZÁVADA, J. and ZÁVODSKÁ, E. (Bratislava): Complementation and Phenotypic Stabilization of Vesicular Stomatitis Virus Temperature-Sensitive and Thermolabile Mutants by Avian Myeloblastosis Virus 25

BARLATI, S.; BREGA, A., and SILVESTRI, L. G. (Milano): Activation of DNA Polymerase of Murine Leukemia Virus by Rifamycin Derivatives 33

WILSON, J. D.; WEBB, H. E.; MOLOMUT, N. M., and PADNOS, M. (Long Island, N.Y.): Depression of PHA Response in Patients during Therapeutic Infection with MP Virus 41

Short Communications

HAYASHI, K.; NIWA, A.; ROSENTHAL, J., and NOTKINS, A. L. (Bethesda, Md.): Detection of Virus-Induced Membrane and Cytoplasmic Antigens: Comparison of the ^{125}I-Labeled Antiviral Antibody Binding Technique with Immunofluorescence 48

MOGENSEN, K. E. and CANTELL, K. (Helsinki): Loss of Specific Antigenicity on Carboxymethylation of Mercaptoethanol-Reduced Interferon of Human Leukocyte Origin 52

BOULANGER, P. A.; TORPIER, G., and RIMSKY, A. (Lille): Crystallographic Study of Intranuclear Adenovirus Type 5 Crystals 56

Varia

Third International Congress for Virology 63

No. 2

NORDENFELT, E. and LE BOUVIER, G. (New Haven, Conn.): Hepatitis B Antigen with Both **d** and **y** Specificities on the Same Particles 65

WALLIS, C.; SHIRLEY, A.; DREESMAN, G., and MELNICK, J. L. (Houston, Tex.): Enhanced Neutralization of Enteroviruses in Salt-Free Medium 75

STORER, G. B.; SHEPHERD, M. G., and KALMAKOFF, J. (Dunedin): Enzyme Activities Associated with Cytoplasmic Polyhedrosis Virus from *Bombyx mori*. I. Nucleotide Phosphohydrolase and Nuclease Activities 87

IRLIN, I.S.; ILYIN, K.V.; BYKOVSKY, A.F.; MILLER, G.G.; VOLKOVA, M.Y.; LOZINSKY, T.F., and ZHDANOV, V.M. (Moscow): Common Antigens in Oncornaviruses from Continuous Human Cell Lines and Mason-Pfizer Virus 95

SÖDERLUND, H.; GLANVILLE, N., and KÄÄRIÄINEN, L. (Helsinki): Polysomal RNAs in Semliki Forest Virus-Infected Cells 100

Short Communications

VERNON, S.K. and RUBIN, B.A. (Philadelphia, Pa.): Electron Microscopic Observations of Adeno-Associated Satellite Virus Type 1 Capsids and Subunits 114

COURTNEY, R.J. and BENYESH-MELNICK, M. (Houston, Tex.): Differential Effect of 2-Deoxy-D-Glucose on Glycoproteins Synthesized by Herpes Simplex Virus Types 1 and 2 120

MOORE, N.F. and KELLY, D.C. (Coventry): Sendai Virus Structural Proteins: Analysis of Polypeptides Linked with Disulfide Bonds 128

Committee on Viral Hepatitis of the NRC/NAS: Nomenclature of Antigens Associated with Viral Hepatitis Type B 134

No. 3

KIT, S.; LEUNG, W.-CH.; TRKULA, D.; DUBBS, D.R., and JORGENSEN, G. (Houston, Tex.): Gel Electrophoresis, Isoelectric Focusing, and Localization of Thymidine Kinase in Normal and Simian Virus 40-Infected Monkey Cells 137

RAVID, Z. and GOLDBLUM, N. (Jerusalem): Analysis of Antigenic Activities of Enzymatically Digested Sindbis Virus Envelopes 152

CALIÒ, R.; CALIÒ-VILLANI, N.; GARACI, E.; RAVAGNAN, G., and STROM, R. (Rome): On the Nature of the Hemolytic Activity of Sendai Virus. A Kinetic Study 160

BOULOY, M.; KRAMS-OZDEN, S.; HORODNICEANU, F., and HANNOUN, C. (Paris): Three-Segment RNA Genome of Lumbo Virus (Bunyavirus) 173

GAIDAMOVICH, S.; KLISENKO, G.; SHANOYAN, N.; OBUKHOVA, V., and MELNIKOVA, E. (Moscow): Indirect Hemagglutination for Diagnosis of Crimean Hemorrhagic Fever 181

ERNEK, E.; KOŽUCH, O.; NOSEK, J., and LABUDA, M. (Bratislava): Evidence for Circulation of Sindbis Virus and other Arboviruses by using Sentinel Animals in Western Slovakia 186

STORER, G.B.; SHEPHERD, M.G., and KALMAKOFF, J. (Dunedin): Enzyme Activities Associated with Cytoplasmic Polyhedrosis Virus from *Bombyx mori*. II. Comparative Studies 193

Short Communication

TEVETHIA, S.S. and BUTEL, J.S. (Boston, Mass.): Induction of Common Transplantation Antigen by Various Isolates of Papovavirus SV40 and by Virus Rescued from Transformed Cells 200

Commentary

Indexes

Subject Index 371
Author Index 375

Subject Index

Adeno-associated satellite virus, electron microscopic study of type 1 capsids and subunits 114
Adenovirus type 5, crystallographic study of intranuclear crystals 56
Antigenic activities of Sindbis virus envelope 152
Antigenic determinants of murine C-type group-specific antigen 326
Antigenic relationship between herpes simplex virus and bovine herpes mammillitis virus 1
Antigenic relationship between oncornaviruses from human tissue cultures and Mason-Pfizer virus 95
Antigens (virus-induced), detection by ^{125}I-labeled antiviral antibody binding technique compared with immunofluorescence 48
Antiviral activity of interferon, dependence upon disulphide bond 52
Arboviruses,
- Bunyavirus, proposal of a new genus 270
- Crimean and Congo hemorrhagic fever diagnosis 181
- Lumbo and Tahyna viruses, RNA genome 173
- Sendai virus and other arboviruses in sentinel animals in Western Slovakia 186
- Sindbis virus, antigenic activities of virus envelope 152
- Sindbis virus, temperature-sensitive mutant from mosquito cells 337

Avian herpesvirus-induced thymidine kinases 299
Avian myeloblastosis virus, complementation of vesicular stomatitis virus 25

Bombyx mori, enzyme activities associated with cytoplasmic polyhedrosis virus 87, 193
Bovine herpes mammillitis virus, relationship with herpes simplex virus types 1 and 2 1
Broad bean wilt virus, study of virus particle aggregates 352
Bunyamwera supergroup, RNA genome of Lumbo and Tahyna viruses 173
Bunyavirus, proposal of a new arbovirus genus 270

Cancer, therapeutic infection with lymphocytic choriomeningitis virus 41
Central nervous system degenerative diseases of man, Creutzfeldt-Jakob disease and kuru 14
Classification,
- antigens associated with viral hepatitis type B 134
- proposal of the genus Bunyavirus 270

Cocksfoot mild mosaic virus, a comparison with phleum mottle virus 253
Co-cultivation for measles virus release 287
Cold-sensitive mutants of poliovirus, isolation 20
Complementation of vesicular stomatitis virus by avian myeloblastosis virus 25
Concanavalin A, inhibitor of neuraminidase activity of influenza A virus strains 266
Congo hemorrhagic fever, diagnosis 181
Creutzfeldt-Jakob disease and kuru, transmission to marmoset monkeys 14
Crimean hemorrhagic fever, diagnosis 181
Crystals, study of adenovirus type 5 56
C-type group-specific antigen, antigenic determinants 326
C-type virus,
- simian sarcoma virus and feline leukemia virus antigens 222

– similarity between gibbon ape and woolly monkey virus antigens 360
Cytoplasmic polyhedrosis virus from *Bombyx mori*, enzyme activities 87, 193

Dane particle, detection of core by radioimmunoassay 231
Diagnosis of Crimean hemorrhagic fever, indirect hemagglutination test 181
Diplotypic hepatitis B antigen 65
Disc PAGE analysis,
– herpesvirus-induced thymidine kinases 299
– thymidine kinase in SV40-infected cells 137
Disulphide bond, importance in human interferon 52
DNA polymerase of murine leukemia virus, activation by rifamycin derivatives 33

Ecological hazards of pesticidal viruses 206
Electron microscopy, adeno-associated satellite virus type 1 capsids and subunits 114
Enteroviruses, enhanced neutralization in salt-free medium 75

Feline leukemia virus antigen, isolation of species- and interspecies-specific proteins 222
Fowl plague virus, neuraminidase mutants 273
Frog virus 3 hepatitis, immunization of mice 244
Frog virus 3, *in vitro* inhibition of mouse liver RNA synthesis 366

Genetic and immunologic relationship between herpes simplex virus and bovine herpes mammillitis virus 1
Genetic complementation of vesicular stomatitis virus by avian myeloblastosis virus 25
Gibbon ape C-type virus antigen, similarity to that of woolly monkey 360
Glycoproteins synthesized by herpes simplex virus types 1 and 2, effect of deoxyglucose 120
Grass viruses, a comparison of cocksfoot mild mosaic virus and phleum mottle virus 253

Hemolytic activity of Sendai virus 160
Hepatitis, immunization of mice against frog virus 3 hepatitis 244
Hepatitis B, radioimmunoassay detection of Dane particle core and antibody to it 231
Hepatitis B antigen,
– diplotypic (both d and y specificities) 65
– nomenclature 134
Hepatocyte toxicity *in vitro* (mouse liver), of frog virus 3 366
Herpes simplex virus types 1 and 2,
– effect of deoxyglucose on glycoproteins synthesized by herpes simplex virus types 1 and 2 120
– immunologic and genetic relationship with bovine herpes mammillitis virus 1
Herpesvirus-induced thymidine kinases (avian), comparison with herpes simplex virus types 1 and 2 299
Herpesvirus infection simulating smallpox in a subhuman primate 280

^{125}I-labeled antiviral antibody binding technique for detection of virus-induced antigens, comparison with immunofluorescence 48
Immunization of mice against toxic hepatitis produced by frog virus 3 244
Immunofluorescence,
– comparison with ^{125}I-labeled binding technique for detection of virus-induced antigens 48
– detection of lactic dehydrogenase virus 261
Immunologic and genetic relationship between herpes simplex virus and bovine herpes mammillitis virus 1
Immunologic relationship between gibbon

ape and woolly monkey C-type virus antigens 360
Infectious center assays, detection of lactic dehydrogenase virus 261
Infectious laryngotracheitis virus-induced thymidine kinases 299
Influenza type A virus, inhibitory effect of Concanavalin A on neuraminidase activity 266
Insecticides (viral), potential ecological hazards 206
Insect virus,
- *Bombyx mori*, enzyme activities of cytoplasmic polyhedrosis virus 87,193
- potential ecological hazards as insecticides 206
Interferon (human), antigenicity and antiviral activity: dependence upon disulphide bond 52
In vitro assay, detection of lactic dehydrogenase virus 261
Isoelectric focusing analysis of herpesvirus-induced thymidine kinases 299
Isoelectric focusing analysis of thymidine kinase in SV40-infected cells 137

Kinetics of hemolysis caused by Sendai virus 160
Kuru and Creutzfeldt-Jakob disease, transmission to marmoset monkeys 14

Lactic dehydrogenase virus, detection by immunofluorescent and infectious center assays 261
Liver RNA synthesis, *in vitro* inhibition by frog virus 3 366
Lumbo virus, RNA genome 173
Lymphocytic choriomeningitis virus, MP strain and depression of phytohemagglutinin response in patients therapeutically infected 41

Marmoset monkeys, transmission of kuru and Creutzfeldt-Jakob disease 14
Mason-Pfizer virus, common antigen with that of oncornaviruses from human tissue cultures 95
Measles virus release after co-cultivation, cytology 287
Mitochondrial thymidine kinase, SV40-infected monkey cells 137
Molinia streak virus, description of properties of this new plant virus 345
Monkey mitochondrial thymidine kinase, SV40-infected cells 137
Mosquito cells, temperature-sensitive mutant of Sindbis virus 337
Mosquitoes, possible vector for Sendai virus infection in Western Slovakia 186
Murine C-type virus, antigenic determinants of group-specific antigens 326
Murine leukemia virus, activation of DNA polymerase by rifamycin derivatives 33
Murine oncornavirus RNA, effects of virion age and multiplicity of infection on viral RNA 209

Neuraminidase inhibition, by Concanavalin A, of influenza A virus strains 266
Neuraminidase mutants of fowl plague virus 273
Nomenclature,
- Bunyavirus, proposal of the genus 270
- antigens associated with viral hepatitis type B 134

Oncornaviruses isolated from human cells, common antigen with that of Mason-Pfizer virus 95
Oncornavirus (murine), effects of multiplicity of infection and virion age on viral RNA 209
Orthomyxovirus, inhibitory effect of Concanavalin A on neuraminidase activity of influenza A virus strains 266

Parainfluenza virus,
- hemolytic activity of Sendai virus 160
- structural polypeptides of Sendai virus 128
Pesticidal viruses, potential ecological hazards 206

Phleum mottle virus, a comparison with cocksfoot mild mosaic virus 253
Phytohemagglutinin response, depression in patients therapeutically infected with MP virus 41
Plant virus,
- broad bean wilt virus, study of virus particle aggregates 352
- cocksfoot mild mosaic virus and phleum mottle virus 253
- Molinia streak virus, description of properties 345

Poliovirus,
- isolation of cold-sensitive mutants 20
- type 1, neutralization in salt-free medium 75

Pox-like herpes infection of a gorilla 280
Pseudotype vesicular stomatitis virus (avian myeloblastosis virus) 25

Radioimmunoassay, detection of hepatitis Dane particle core and antibody to it 231
Release of measles virus after co-cultivation 287
Rifamycin derivatives, activation of DNA polymerase of murine leukemia virus 33
RNA genome of Lumbo and Tahyna viruses 173
RNA synthesis, vesicular stomatitis virus mutants 312
RNAs (polysomal) in Semliki Forest virus-infected cells 100

Salt-free solutions, enterovirus neutralization 75
Satellite virus, electron microscopy of adeno-associated type 1 virus capsids and subunits 114
Semliki Forest virus-infected cells, polysomal RNAs 100
Sendai virus,
- hemolytic activity 160
- structural proteins, analysis of polypeptides linked with disulfide bonds 128

Sentinel animals, isolation of Sindbis virus in Western Slovakia 186
Simian sarcoma virus antigen, isolation of species- and interspecies-specific proteins 222
Sindbis virus,
- antigenic activities of virus envelope 152
- isolation from sentinel animals in Western Slovakia 186
- temperature-sensitive mutant from mosquito cells 337

Smallpox-like herpes infection of a gorilla 280
Species- and interspecies-specific antigens, simian sarcoma virus and feline leukemia virus 222
Subtypes of hepatitis B antigen 65
SV40,
- induction of transplantation antigen 200
- thymidine kinase activity 137

Tahyna virus, RNA genome 173
Taxonomy, proposal of the genus Bunyavirus 270
Temperature-sensitive mutant of Sindbis virus from mosquito cells 337
Temperature-sensitive mutants of vesicular stomatitis virus, RNA synthesis 312
Thymidine kinase, SV40-infected monkey cells 137
Thymidine kinases, herpesvirus-induced (avian) 299
Transplantation antigen, induction by isolates of SV40 and by virus rescued from transformed cells 200
Turkey herpesvirus-induced thymidine kinases 299

Varicella-like herpesvirus from a gorilla 280
Vesicular stomatitis virus, mutant RNA synthesis 312
Viral insecticides, potential ecological hazards 206
Viral nucleotide and nuclease activities,

cytoplasmic polyhedrosis virus of *B.mori* 87, 193
Viral RNA, effects of multiplicity of infection and virion age on murine oncornavirus RNA 209
Viral RNA polymerase, cytoplasmic polyhedrosis virus of *B.mori* 87, 193
Viral RNA synthesis, vesicular stomatitis virus mutants 312
Virus-induced antigens, detection by ^{125}I-labeled antiviral antibody binding technique compared with immunofluorescence 48
Virus neutralization, enteroviruses 75
Virus release after co-cultivation, measles virus 287

Woolly monkey C-type virus antigen, similarity to that of gibbon ape 360
